

# Roses

**The Knock Out® Rose** ranges from 3 to 5 feet tall and equally wide. It produces multiple clusters of terminal blooms, each 3 to 3.5 inches across. These very light, fragrant flowers come in many colors and will bloom from spring until frost. Humidity doesn't seem to bother the Knock Out® Rose, and it's drought and cold tolerant. It's somewhat shade-tolerant but does need about six hours of full sun per day. True to its low maintenance reputation, the Knock Out® Rose doesn't require deadheading and is resistant to aphids, powdery mildew and black spot. Choose a well-drained site with good air movement.

Zones 4 – 9 ☀️

Plant 48" apart.

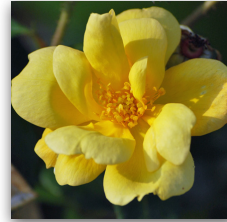

**Knock Out®**  
PP#11836

**Pink Knock Out®**  
PP#15070

**Coral Knock Out®**  
PP#19803

**Sunny Knock Out®**  
PP#18562

**White Knock Out®**  
PP#20273

Roses and Shrubs

## Double Knock Out® Roses

are more floriferous than regular Knock Out® Roses and they raise the bar with petal counts of 18-25, twice the number of petals on Knock Out® Roses, with 3-6 blooms per stem. Plant 48" apart. Zones 4 – 9 ☀️

**Double Knock Out®**  
PP#16202

**Pink Double Knock Out®**  
PP#18507

## Rosa rugosa

**Beach Rose**

Often used for beach stabilization and erosion control, the salt tolerant rugosa rose is not picky about soil conditions and forms a sturdy shrub or hedge. Very fragrant single to semi-double crimson-pink flowers bloom from May to September on 3-6' tall foliage.

Plant 24" apart.

Zones 2 – 8 ☀️

Gold = Sun, Green = Shade + Level deer resistance (see page 6 for program details)

## Drift® Roses

A breakthrough in hybridizing, Drifts® are compact groundcover roses. Their versatile habit fits equally well into small home gardens, patio containers and hanging baskets as it does when they are planted en masse across large, open beds. The Drifts® are winter hardy in zone 5 and could easily qualify as spreading miniatures. Disease resistant.

Grows 1-2' tall. Plant 36" apart.

Zones 4 - 9

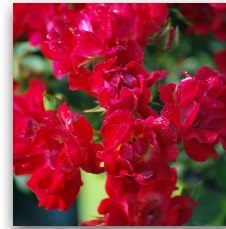

Apricot Drift®  
PP#23354

Pink Drift®  
PP#18874

Popcorn Drift®  
PP#24773

Red Drift®  
PP#17877

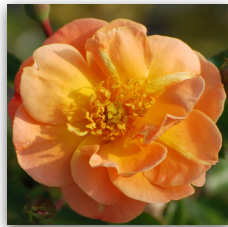

Sweet Drift®  
PP#21612

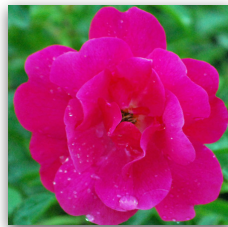

## Flower Carpet® Roses

Up to 2000 blooms in a single season on low, rounded foliage that grows 28-36" tall. Blooms appear in mid to late spring and continue into fall. All varieties have excellent disease resistance but the new generation Flower Carpet® roses, (Amber, Scarlet and Pink Supreme), have increased heat and humidity tolerance and improved disease resistance. Plant 24" apart.

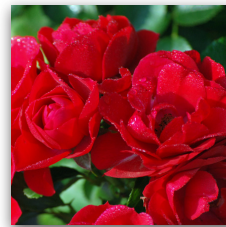

Zones 4 - 11

Flower Carpet® Amber  
PP#17098

Flower Carpet® Pink Supreme  
PP#16276

Flower Carpet® Scarlet  
PP#17373

Flower Carpet® White  
PP#9573

Flower Carpet® Yellow  
PP#13869

## Petite Knock Out®

The Petite Knock Out® Rose boasts continuous blooms of vivid red from spring into fall on compact bushy foliage that grows only 18" tall! Like the traditional Knock Out® Rose the foliage is disease resistant but, unlike its cousin, this petite beauty is an obvious choice for containers and will be eye-candy on the retail bench! PP#30811

Plant 18' apart.

Zones 4 - 9

# Shrubs

## Abelia x 'Edward Goucher'

### Abelia

This long blooming shrub has arching branches that hold clusters of **lavender-pink** tubular flowers from mid-summer to fall. Foliage grows **3-5'** tall and turns bronze-purple in fall. Use as a hedge or specimen in the mixed border.

**Plant 3-5' apart.**

Zones 6 – 9

## Abelia x grandiflora

### 'Kaleidoscope'

#### Abelia

The changing colors through the seasons bring striking contrast to the landscape. In spring leaves are chartreuse-yellow and green. In summer **white** star-shaped flowers top golden yellow variegated foliage and in fall the foliage becomes orange and red. Grows to **24-30"** tall. PP#16988

**Plant 36" apart.**

Zones 6 – 9

## Abelia x 'Rose Creek'

### Abelia

Pink tinged in spring, the low mounding **3'** tall foliage becomes glossy dark green in summer. Clusters of fragrant tubular **white** flowers and rose-pink sepals appear on the ends of burgundy stems in late spring to fall. In warmer climates where Abelia remains evergreen the foliage develops a purple hue in winter.

**Plant 48" apart.**

Zones 6 – 9

## Arbovitae 'Green Giant'

### (Thuja x 'Green Giant')

#### Green Giant Arborvitae

Often used as a quick growing screen the dense evergreen foliage can grow 3-4' per year. 'Green Giant' grows **40-60'** as a narrow pyramidal-shaped tree or if planted 5-6' apart it can be pruned as a hedge. Prefers moist, fertile, well-drained soil.

**Plant 18' apart.**

Zones 5 – 8

## Aronia melanocarpa

### Ground Hug™

#### Dwarf Black Chokeberry

Dark glossy green deciduous foliage is mat-forming and is excellent used as a ground cover for difficult sites. The **8-14"** tall foliage spreads to 3', choking out weeds and eliminating the need to mulch. Native Ground Hug™ has **white** flowers in spring followed by deep purple berries in late summer and attractive orange-red foliage in fall. Grows **8-14"** tall. PP#31821

**Plant 36" apart.**

Photo courtesy of Spring Meadow Nursery

Zones 3 – 9

## Berberis WorryFree®

### Crimson Cutie® Barberry

WorryFree® Barberries offer a seed free, compact Barberry that **IS NOT** invasive. Plant 'Crimson Cutie' guilt free and enjoy the stunning deep red-purple foliage on **2-2.5'** arching spiny branches. Here's a shrub that handles most any kind of soil as long as it's not waterlogged. It's dense, mounded habit and ability to blend well with a host of perennials and other shrubs make this plant a natural choice for design. PP#30095

**Plant 3' apart**

Zones 4 – 8

Gold = Sun, Green = Shade + Level deer resistance (see page 6 for program details)

Roses and Shrubs

**Pugster Blue®** PP#28794

**Pugster Periwinkle®** PP#28796

**Pugster Pinker®** PP#33565

**Buddleia x davidii**

**Pugster® Series**

**Butterfly Bush**

Non-stop full-sized fragrant flowers bloom from summer to frost on compact 2' tall and wide plants. We are offering four of the color-packed Pugster® Buddleia. This dwarf series has sturdy stems that reduce winter dieback and experience less breakage. Plant in small garden spaces or use as a low hedge. Buddleia are salt tolerant and resistant to deer browsing. Performs best in average moisture and well-drained soil. **Plant 24" apart.** Pugster® Pinker photo courtesy of Spring Meadow Nursery

Zones 5 - 9    F 

**Buxus NewGen Freedom®**

**Boxwood**

NewGen Boxwood offers specimens with a vigorous growth habit, high tolerance of Boxwood Blight, good resistance to Boxwood Leafminer and resistance to other diseases and pests. This strong grower requires a light pruning in late winter to early spring to keep the dense rounded shape. Foliage grows slightly taller than wide and will grow to 3.5' tall and wide in 15 years and up to 5'. A good substitute for 'Winter Gem'. PP#32421

**Plant 3-5' apart.**

Zones 5 - 8   

**Buxus NewGen Independence®**

**Boxwood**

Another excellent choice from the NewGen series with the same disease and pest resistance as Freedom®. Deep green foliage forms a dense, rounded shape and holds color well in winter. Lightly prune annually in late winter to early spring. Plants will grow to 3' tall and wide in 15 years and up to 4.5'. A good substitute for 'Green Velvet'. PP#28888

**Plant 3-4' apart.**

Zones 5 - 8   

**Buxus x sempervirens 'Green Velvet'**

**Boxwood**

Compact dense foliage has a broad mounded form with a moderate growth rate to an overall height and spread of 2-4'. In Zones 5 & 6 plant in a sheltered location to protect from winter winds.

**Plant 3' apart.**

Zones 5 - 8    

**Buxus x 'Winter Gem'**

**Boxwood**

Korean littleleaf boxwood is compact and mounded with an open habit. Grows 5' tall over several years if not pruned.

**Plant 3' apart.**

Zones 5 - 8    

**Caryopteris clandonensis 'Dark Knight'**

**Blue Beard**

A low-growing, late-blooming shrub that reaches a height of only 2-3', with clusters of deepest dark blue flowers from August through September. The foliage is lance-shaped and silvery-green. Will attract flocks of butterflies! Combine with Aster 'October Skies' and Chrysanthemum nipponicum.

**Plant 24" apart.**

Zones 5 - 9    F 

**Caryopteris x 'First Choice' Blue Beard**

This compact form of Caryopteris has deep inky-blue buds that open to large cobalt-blue flowers, which are profuse on erect stems from late August to early October. Best of all, the rounded compact habit means 'First Choice' requires little pruning and won't have the floppy habit some cultivars exhibit. Pest and disease-free, it reaches 36". PP#11958

**Plant 24" apart.**

Zones 5 - 9    F 

Roses and Shrubs

**Caryopteris x clandonensis**

**Grand Bleu®**

**Bluebeard**

Blooming in mid to late summer with **deep violet blue** flowers against silvery green foliage, the effect is said to resemble a blue mist. The aromatic leaves add appeal to this compact shrub. Treat as a perennial and cut to just above ground in late winter. Grows **24-30"** in height.

PP#17837

Plant **24"** apart.

Zones 5 - 9

**Caryopteris incana**

**Pavillion™ Pink**

**Bluebeard**

Soft **pink** blooms appear close together on compact **16"** tall stems producing a mound of color in late summer to fall. Try in a container or near the front of the border and watch the butterflies enjoy this 'bluebeard' too!

Plant **18"** apart.

Photo courtesy of Danzinger.

Zones 5 - 9

**Ceonothus americanus**

**New Jersey Tea**

In late spring to early summer the fragrant **white** flower clusters catch the eye of eastern woodland trail hikers, and pollinators, alike. In the garden, New Jersey Tea will do no less. Flower panicles appear at the tips of the stems on low mounded foliage that typically grows **3'** tall and **5'** wide. This native prefers average to dry soil, and has a deep root system that allows it to survive periods of drought and serve as erosion control. The tap root, however, also makes it difficult to transplant. Plant **5'** apart.

Zones 4 - 9

*New for 2024*

**Cephalanthus occidentalis**

**Buttonbush**

Tubular **white** flowers in sphere-shaped clusters open in early to mid-summer. The eye-catching clusters are fragrant, and attract butterflies and a host of other pollinators. Flower heads develop into hard round fruits that persist into winter. The foliage has an open rounded habit and grows **6-12'** tall and wide. Prefers moist to wet humus rich soil, but is adaptable to many soil types.

Plant **8'** apart. *New for 2024*

Zones 5 - 9

**Cephalotaxus harringtonia var. drupacea**

**Japanese Plum Yew**

**Japanese Plum Yew**

Evergreen Taxus-like foliage is dense and branches are slightly drooping. It grows slowly **5'** tall and **10'** wide and is deer resistant. Use in the shrub border with Deutzia 'Nikko', Hydrangea 'Annabelle' and Fothergilla 'Mt. Airy'.

Plant **5'** apart.

Zones 6 - 9

**Chamaecyparis pisifera**

**'Golden Mop'**

**Threadleaf False Cypress**

This evergreen conifer has golden yellow needles that are 'stringy' and mop-like. Slow growing it will form a **3'** tall and **4'** wide mound in about 10 years but can grow as tall as **5'**. Use as an accent in the rock garden or shrub border. Prefers average to medium moisture.

Plant **3'** apart.

Zones 4 - 8

**Clethra alnifolia**

**'Hummingbird'**

**Summersweet**

Native summersweet thrives in the partly shady, moist shrub border or woodland's edge, and the very fragrant **white** bottle-brush like flowers in July and August are much valued by birds, butterflies and bees. 'Hummingbird' is a compact variety that grows **3-4'** tall and is slower to spread than the species. Brilliant yellow foliage in fall.

Plant **36"** apart.

Zones 3 - 9

**Clethra alnifolia**

**'Ruby Spice'**

**Ruby Spice Summersweet**

A gentle breeze will carry the heavenly fragrance of the lovely **rose-pink** spring blooms and the spicy sweet aroma of the foliage through your garden, and to your doorstep. Spreading by rhizomes, this summersweet grows **4-6'** tall and prefers moist, rich, acidic soil. 'Ruby Spice' will thrive in the woodland garden, shrub border or along water's edge.

Plant **48"** apart.

Zones 3 - 9

Gold = Sun, Green = Shade + Level deer resistance (see page 6 for program details)

Roses and Shrubs

**Cornus sericea**  
**Arctic Fire® Red**

**Red-twig Dogwood**

When winter settles in and snow is on the ground, the red-twig dogwood reminds us life continues even in dormancy! Many smaller gardens could not enjoy this winter beauty until Arctic Fire® Red was introduced. A dwarf variety at 5' tall and wide, it has the same deep red stems in winter and white flowers in spring. PP#18523.

Plant 5' apart.

Photo courtesy of Spring Meadow Nursery.

Zones 2 - 7

**Cornus sericea 'Baileyi'**

**Red Twig Dogwood**

Red twig dogwood is celebrated for its bright red stems in winter that are stunning against a backdrop of white paper birch or a snow covered landscape. White flat-topped flower clusters in spring lead to blue-tinged whitish fruits in summer that supply food for birds.

This cultivar grows 6-8' tall with a rounded habit that does not sucker like the straight species. Prefers moist soil and tolerates wet areas.

Plant 8' apart.

Zones 3 - 8

**Deutzia gracilis 'Nikko'**

**Slender Deutzia**

Deutzia offers many seasons of interest from the very floriferous spring blooming season to the attractive dense mounding green foliage in summer that transforms to gorgeous burgundy red in fall. Clusters of small white flowers appear on upright panicles in late spring. 1-3' tall foliage spreads up to 5' wide.

Plant 48" apart.

Zones 5 - 8

**Deutzia x**

**Yuki Cherry Blossom®**

**Deutzia**

A show stopping display of cascading, two-toned, soft pink flowers covers this neat, mounding 1-2' dwarf Deutzia in spring, followed by rich burgundy-purple fall color.

Tough, adaptable, and deer resistant, Yuki Cherry Blossom is the perfect problem solving shrub. Try as a groundcover, mass planting, on a sunny slope or even in a container.

PP#28347

Plant 12-24" apart.

Photo courtesy of Spring Meadow Nursery

Zones 5 - 8

**Deutzia x Yuki Snowflake®**

**Deutzia**

Elegance and charm abound with this small compact 1-2' Deutzia. Deep green deciduous leaves provide the perfect backdrop for the stunning snowy mass, of crisp white bell shaped flowers on arching branches in spring. Autumn foliage is tinted with purplish-burgundy hues adding season long color. Beautiful as a specimen or in a mass. Deer resistant.

Plant 12-24" apart.

Photo courtesy of Spring Meadow Nursery

Zones 5 - 8

**Fothergilla major**

**'Mt. Airy'**

**Dwarf Fothergilla**

Fothergilla is a spring-flowering shrub known for fall color and fragrant flowers. We have chosen to grow 'Mt. Airy' because of its vigorous growth habit (to 5'), lovely autumn color, dependable cold hardiness, and the bonus of those white flowers that open as leaves emerge in spring. Fall color is brilliant where this shrub is grown in full sun. Give it the moist, peaty, acid soil it prefers.

Plant 3' apart.

Zones 5 - 9

**Fothergilla x intermedia**

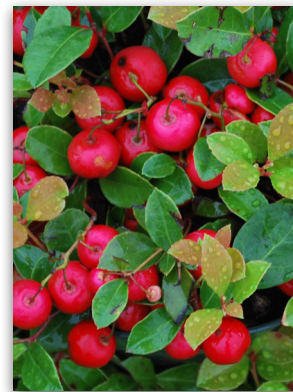

**'Blue Shadow'**

**Fothergilla / Witch Alder**

Just as leaves begin to emerge in May, fragrant white bottlebrush flowers appear on the tips of the upright stems. As the spring progresses the leaves age to powder blue and offer a cool contrast in the dappled shade garden all summer. Brilliant red, orange, and yellow hues lead up to the finish in fall. Grows to 4-6' tall and wide. Try with Autumn Fern and Hellebores. PP#15490. Plant 3' apart.

*New for 2024*

Zones 5 - 9

**Gaultheria procumbens**

**Wintergreen**

Native to eastern North American oak woods and bogs, this evergreen groundcover produces a wintergreen mint aroma when the leaves are crushed. White nodding bell-shaped flowers on 3-6" tall stems from June to August are followed by bright red berries in fall that persist through winter. Provide morning sun and light afternoon shade and consistent moisture.

Plant 18" apart.

Zones 3 - 8

Roses and Shrubs

**Hydrangea aborescens**  
**'Annabelle'**

**Smooth Hydrangea**

The classic brilliantly **white** "mop-head" blooms of 'Annabelle' are evident from May-July, and can be 12" in diameter. The shrub's shape is a rounded mound, broader than high at maturity. Figure the height at **3-5'**. Try it with Spiraeas for a real summer show. Deciduous 'Annabelle' can be cut to within 6" of the ground in late winter.

**Plant 5' apart.**

Zones 3 - 9

**Hydrangea arborescens**  
**Incrediball®**

**Smooth Hydrangea**

As a cut flower, Incrediball® will need a large vase to support the incredibly large inflorescence, but in the garden very strong stems will hold them! The huge **white** flower clusters appear in mid-summer and age to lime green. This native cultivar grows **4-5'** tall and wide. Use in the back of the mixed border or as a hedge. PP#20571. **Plant 5' apart.**

Photo courtesy of Spring Meadow Nursery.

Zones 3 - 8

**Hydrangea macrophylla**  
**BloomStruck®**

**Endless Summer® Hydrangea**

Grandmother would have loved to greet visitors at her cottage door with this beautiful re-blooming hydrangea. Mopheads measuring 3.5-5" across bloom **rose-pink** or **violet blue**, depending on pH, atop burgundy stems and handsome **3-4'** tall dark green foliage. Blooms appear all summer long on old wood and new growth. PP#25566

**Plant 4' apart.**

Zones 4 - 9

**Hydrangea macrophylla**  
**Endless Summer®**

**The Original**

**Big Leaf Hydrangea**

Mop-head bears 8-10" flower heads of **pink** in neutral to alkaline soil or **blue** in acidic soil. Best is, it blooms on old and new wood and blooms through the summer. Happiest in partial or dappled shade with consistent moisture, growing to a mature height of **5'**. PP#15298

**Plant 3-4' apart.**

Zones 4 - 9

**Hydrangea macrophylla**  
**Summer Crush®**

**Endless Summer® Hydrangea**

Wow! This Hydrangea delivers stunning color for the patio container or border with its large mophead flowers of saturated **raspberry red** or **neon purple**. Compact and tidy too! Grows **18-36"** tall. PP#30359

**Plant 2-3' apart.**

Zones 4 - 9

**Hydrangea macrophylla**  
**Twist-n-Shout®**

**Endless Summer® Lacecap Hydrangea**

Shake it up baby now...with the first ever reblooming lacecap introduced as part of the Endless Summer® collection. Handsome dark green foliage and sturdy deep red stems support **pink** flowers in alkaline soil or **periwinkle** flowers in acidic soil. First blooms in early summer with the next round in late-summer. Height of **3-5'**. PP# 20176

**Plant 36" apart.**

Zones 4 - 9

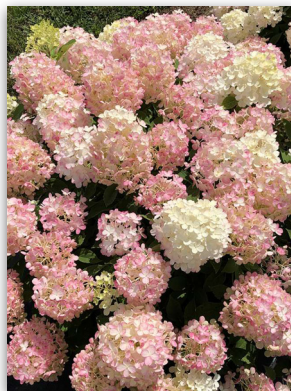

**Hydrangea paniculata Bobo®**  
**Panicle Hydrangea**

Absolutely stunning in summer when the **30-36"** tall foliage is smothered with creamy **white** flower panicles. Blooms are held on strong stems and get larger and longer as the season progresses, becoming even more eye-catching in fall when the flowers take on a pinkish hue. Expect a beautiful floral display every summer as it blooms on new wood. PP#21008

**Plant 48" apart.**

Zones 3 - 9

**Hydrangea paniculata**  
**Fire Light Tidbit®**

**Dwarf Panicle Hydrangea**

At **2-3'** Fire Light Tidbit® is one of the smallest of the panicle Hydrangeas, but this pint sized beauty doesn't skimp on flowers. Creamy **white** flowers blanket this bun shaped shrub, then turn **raspberry-pink** to **red** as they age. Autumn foliage turns orange- yellow keeping it colorful until the first frost. Perfectly sized for a patio container, low flowering hedge or perennial border. PP#32512

**Plant 36" apart.**

Photo courtesy of Spring Meadow Nursery

Zones 3 - 8

Gold = Sun, Green = Shade + Level deer resistance (see page 6 for program details)

Roses and Shrubs

**Hydrangea paniculata**  
**Limelight Prime®**

**Panicle Hydrangea**

Limelight Prime® is an improved version of the popular 'Limelight' Hydrangea featuring a more dense, compact growth habit of 4-6' with stronger stems. Vivid lime-green flowers emerge earlier, and keep their color until late summer, when they transition to brighter, deeper tones of pink and red. Tolerant of wind and severe winters. Blooms are produced on new wood. PP#32511

Plant 5' apart.

Photo courtesy of Spring Meadow Nursery

Zones 3 - 8

**Hydrangea paniculata**  
**Little Lime®**

**Panicle Hydrangea**

This compact version of 'Limelight' grows to 3-5' tall with the same mid-summer creamy lime-green flowers that turn rose-pink in the fall. Excellent wind and cold tolerance and perfect for containers or borders.

PP#22330

Plant 36" apart

Zones 3 - 9

**Hydrangea paniculata**  
**Little Lime Punch®**

**Panicle Hydrangea**

A gradient show of color on blooms that begin a brilliant shade of lime green, and, as the growing season progresses, change color to white, pink and eventually settle into a tropical punch red. During the season, the 3-5' shrub will have flower clusters in various stages of the color transition. An excellent addition to a cut flower arrangement. Plant in full sun to part shade and this sturdy compact plant will give you weeks to months of summer and fall color. PP# 33207.

Plant 3-5' apart. Photo courtesy of Spring Meadow Nursery.

Zones 3 - 9

**Hydrangea paniculata**  
**Little Quick Fire®**

**Panicle Hydrangea**

The earliest blooming of the panicle Hydrangea and dwarf at just 3-5' tall and wide, the lacy blooms open to creamy white and turn deep red as they age. Great for containers or smaller spaces. PP#25136

Plant 6' apart.

Photo courtesy of Spring Meadow Nursery

Zones 3 - 8

**Hydrangea quercifolia**  
**'Snow Queen'**

**Oakleaf Hydrangea**

Showy conical clusters of white flowers are held on strong stems from late spring through summer. Blooms age to dusty pink and the large oak-like leaves turn bronzy-purple in fall. Exfoliating bark adds winter interest. Under-plant with native Virginia bluebells for early spring color as 'Snow Queen' begins to break dormancy. Grows 5-6' tall and 6-8' wide. Plant 6' apart.

Zones 3 - 8

**Ilex glabra 'Shamrock'**  
**Inkberry**

A compact broadleaf evergreen shrub that is a great choice for mass plantings, foundations and naturalizing. Shamrock Inkberry is a minimal care shrub that can tolerate wet soil, but will thrive in average soil also. Resistant to deer browsing and is a great choice for rain gardens. Plants will produce small, black berries if male is present. 3-4' tall by 3-4'. Plant 4' apart.

Zones 4 - 9

**Ilex verticillata 'Winter Red'**  
**Winterberry**

Deciduous winterberry is a favorite for its bright red berries on bare stems in winter and attractiveness to birds and beneficial insects. Grows 8-10' tall with dark green foliage and small white flowers in late spring. Add a male pollinator, such as Ilex v. 'Southern Gentleman', to cross-pollinate and produce berries on 'Winter Red'.

Plant 6' apart.

Zones 3 - 9

**Itea virginica 'Henry's Garnet'**  
**Virginia Sweetspire**

'Henry's Garnet' has fragrant 6" long white racemes in June and July in good quantity. The rich green leaves make a nice rounded shape 4-5' high and 6' wide. Its foliage in the fall is dependably brilliant reddish-purple in color before fulfilling its deciduous life cycle. This shrub is easy to grow handling shade or sun, and wet or dry soils.

Plant 5' apart.

Zones 5 - 8

Roses and Shrubs

**Itea virginica Little Henry®**

**Dwarf Virginia Sweetspire**

The arching shoots of native 'Little Henry' bear the same fragrant **white** bottlebrush blooms as 'Henry's Garnet', but this handy little deciduous shrub reaches **2 1/2'** tall at best. Tidy in shape, the shiny dark green leaves turn brilliantly red-purple in fall. As a foil for competing perennial colors in the border, for foliage contrast, or massed on its own, 'Little Henry' is an alternative worth considering. PP#10988 **Plant 3' apart.**

Zones 5 - 8

**Leucothoe axillaris**

**Coastal doghobble**

This native evergreen shrub is well suited to moist, shaded areas with protection from winter winds. Grows **2-4'** tall with dark leathery green leaves. Fragrant **white** bell-shaped flowers appear in spring and attract bees and butterflies. Plant in the shade garden with native ferns, pachysandra procumbens and Tiarella. **Plant 36" apart.**

Zones 5 - 9

**Myrica pensylvanica**

**Bayberry**

Native to eastern coastal areas of the United States and Canada, bayberry's tolerance of drought, poor soils, high winds and salt make it ideal for the coastal landscape. Dark green leathery foliage is deciduous. Aromatic gray berries are commonly used to make candles and soaps. Grows **6-10'** tall. **Plant 6' apart.**

Zones 3 - 7

**Nandina domestica**

**'Gulf Stream'**

**Heavenly Bamboo**

Popular used as a foundation plant or sited in a parking lot island because of its moisture and drought tolerance and colorful changing foliage. New leaves in spring are bright red and transition to blue-green in summer followed by deep red in fall. A bit monotonous in a mass planting, try 'Gulf Stream' as an accent in an evergreen border. Grows **30-36"** tall and wide.

Zones 6 - 10

**Nandina domestica**

**Harbor Belle™**

**Dwarf Heavenly Bamboo**

Nandina provides provides many seasons of interest as an accent plant or low hedge. New foliage is pinkish in color as it emerges in spring and then turns dark green, finishing out the fall a beautiful deep burgundy-red. Grows in a dense mound to **15-18"** tall. Small white star-shaped flowers in late spring are followed by clusters of red berries in fall. Evergreen in warmer climates. PP#14668 **Plant 24" apart.**

Zones 6 - 10

**Osmanthus heterophyllus**

**'Goshiki'**

**False Holly**

Holly-like multi-colored leaves are green, creamy-white, gray-green and yellow-green. Grows **3-5'** tall. **Plant 3' apart.**

Zones 6 - 10

**Physocarpus opulifolius**

**Tiny Wine®**

**Dwarf Ninebark**

Despite its small size, this upright cultivar packs a colorful punch with striking deep purple foliage and contrasting clusters of showy, pale **pinkish white** flowers in late spring. Like other Ninebarks, the **3-4'** stems of Tiny Wine® develop exfoliating layers of bark on mature branches adding visual interest to the winter garden. With season long color, this shrub is a great choice in the landscape. PP#26749 **Plant 3' apart.** Photo courtesy of Spring Meadow Nursery

Zones 3 - 7

**Pieris japonica**

**'Brouwer's Beauty'**

**Japanese Pieris**

This upright shrub has long lasting blooms which appear in late winter to early spring and last for many weeks. **Reddish-purple** buds and **creamy white** urn-shaped flowers appear on dangling chains. Glossy evergreen foliage grows to **8'** tall. **Plant 5' apart.**

Zones 5 - 8

Gold = Sun, Green = Shade + Level deer resistance (see page 6 for program details)

Roses and Shrubs

**Pieris japonica**  
**'Mountain Fire'**

Japanese Pieris

A popular ornamental evergreen shrub most noted for the fiery red foliage that emerges in spring and ages to a glossy deep green. Profuse clusters of fragrant **white** cascading bell-shaped flowers appear in late winter. An ideal choice for adding bold color to the partially shaded garden, use as a specimen, foundation plant or that tricky shady corner. Slow growing, 'Mountain Fire' reaches a mature height of **6-8'** over time.

Plant **5'** apart

Zones 5 - 8

**Prunus laurocerasus**  
**'Otto Luyken'**

Cherry Laurel

This compact variety grows **3-4'** tall and is free-flowering. Glossy evergreen foliage prefers some afternoon shade in hotter regions. Upright **creamy-white** flower clusters appear in spring and give way to small black fruits loved by birds in mid-summer.

Plant **6'** apart.

Zones 6 - 8

**Rhus aromatica 'Gro-Low'**  
**Fragrant Sumac**

This fragrant woody ground cover grows **12-36"** tall and will spread to **6-8'**, establishing itself in a variety of soil types. Glossy dark green leaves turn striking shades of orange, red and burgundy in the fall. Clusters of small **yellow** flowers appear in late spring followed by hairy red berries in late summer. Use as a bank stabilizer or as an attractive filler in large areas where it will choke out weeds.

Plant **3- 5'** apart.

Zones 3

**Rubus idaeus 'Heritage'**  
**Red Raspberry**

A long-time favorite, you'll be picking baskets of luscious, plump heart shaped raspberries from this ever-bearing variety. A moderate crop will arrive midsummer followed by an abundant fall harvest lasting from August until frost. Clusters of white, rose-like flowers give way to sweet, juicy red fruits on **4-5'** sturdy canes that do not need staking. You only need one to produce fruit with this self-pollinating variety, but you may want more for eating fresh, making jam or freezing. Deciduous. Plant **24-36"** apart.

Zones 4 - 8

**Fruits & Berries**

**Sarcococca hookeriana var. humilis**  
**Sweet box**

Unbelievably sweet fragrance wafts from the almost unnoticed **white** flowers in late winter to early spring. Slow to establish the dark glossy evergreen foliage will grow to **18"** and spread to **2'**. Sweetbox is a member of the boxwood family and has similar dense evergreen foliage and glossy green leaves. Great groundcover for moist shade. Prefers organically rich soil.

Plant **24"** apart.

Zones 6 - 9

**Spiraea x bumalda**  
**'Anthony Waterer' Spirea**

If your garden is in need of color, look no further! 'Anthony Waterer' delivers vibrant, **rosy pink** clusters of flowers from late spring through fall. Upright and mounding, this low maintenance deciduous shrub grows **2-3'** tall and pollinators love it! New foliage emerges with a reddish-purple hue, matures to blue-green in the summer and becomes tinged with red again in the fall. Plant in full sun to maximize blooms. Remove spent flowers to encourage new growth. Plant **3'** apart.

Zones 4 - 8

**Spiraea japonica**  
**Double Play® Candy Corn®**  
**Spirea**

From bright red in spring to orange-yellow in summer the boldly colored foliage and dark purple flowers in late spring will be a non-stop dazzling display. Mounded foliage grows **1-2'** tall and wide. PP#28313

Plant **2'** apart.

Zones 4 - 8

Roses and Shrubs

**Spiraea japonica**  
**'Golden Elf'**

**Dwarf Bridal Wreath**

This very small, low-growing deciduous shrub reaches only **8"** in height with a spread of about **24"**. Tiny golden oval leaves are topped with **pink** flowers in May last through July. Spiraea looks nice in a rock garden or in the front of a border. Remove spent flowers for new growth. It can be pruned back in late winter. PP#12025  
**Plant 2' apart.**

Zones 4 - 8

**Syringa Bloomerang®**  
**Dark Purple**

**Lilac**

Clusters of beautiful **dark purple** buds and purple blooms fill the spring air with sweet fragrance and beauty. A second round of blooms appear in mid-summer to frost. This improved variety grows **4-6'** tall and wide, compact enough for smaller gardens. PP#26549  
**Plant 6' apart.**

Zones 3 - 7

**Syringa Bloomerang®**  
**Dwarf Purple**

**Dwarf Lilac**

Perfect for small spaces, this dwarf version of the original re-blooming lilac produces a profusion of sweetly scented panicles of **purple** star-like flowers that cover this **3'** rounded shrub in late spring. After a short resting period to promote new growth, this deer resistant beauty springs into action again in mid to late summer blooming intermittently through the fall. Plant as a low hedge along a pathway or under a window where it's sweet fragrance can be enjoyed. PP# 29831 **Plant 3' apart.**

Photo courtesy of Spring Meadow Nursery.

Zones 3 - 7

**Syringa pubescence subsp. patula**  
**'Miss Kim'**

**Korean Lilac**

'Miss Kim' not only produces sweetly scented blossoms in spring but also has beautiful purplish-maroon foliage in fall. She is a compact grower at **6-8'** with clusters of single **light lavender** flowers in mid to late spring that fade to lavender-pink. Remove spent blooms to improve flowering performance for the following spring.

**Plant 6-8' apart.**

Zones 3 - 7

**Syringa Scentara®**  
**Double Blue**

**Lilac**

Exceptionally fragrant, Syringa Scentara® Double Blue is considered to be one of the most fragrant lilacs on the market. Early flowering with large clusters of **lavender-blue** double florets, this Lilac has a classic upright shape, growing **6-8'** with bright green heart shaped leaves that stay fresh looking all summer long. Plant as a specimen or as a backdrop to later flowering summer perennials. PP# 29801 **Plant 6' apart.**

Photo courtesy of Spring Meadow Nursery.

Zones 2 - 8

**Syringa x hyacinthiflora**  
**'Pocahontas'**

**Lilac**

Deep maroon-purple buds open into single, **violet** blooms perfuming the air and inviting butterflies and hummingbirds. A profuse, early bloomer, you will have plenty of flowers clusters for cutting and to bring indoors. This deciduous shrub grows **8-10'** and has open upright branches covered in bright green heart-shaped leaves that stay attractive all summer. Beautiful as a specimen plant or when planted as a flowering hedge. **Plant 8' apart.**

Zones 2 - 8

**Vaccinium angustifolium**

**Lowbush blueberry**

Popular among birds, butterflies and humans with its mild, sweet fruit produced in early summer and preceded by small **pinkish-white** flowers in spring. Native lowbush blueberry spreads by runners. **8"-12"** tall stems are 'twiggy' with glossy green leaves in summer and reddish-purple leaves in fall.

**Plant 24" apart.**

Zones 2 - 5

**Vaccinium x corymbosum**

**'Patriot'**  
**Highbush Blueberry**

This native blueberry offers a little something for everyone. Gardeners can enjoy the pink-tinged white flowers in late spring followed by nutritional blueberries in mid-summer, while birds and mammals can indulge in its outstanding food source. 'Patriot' is an upright well-branched variety with blue-grey foliage that turns burgundy-red in fall. Foliage grows **5-8'** tall and produces sweet blueberries that ripen in mid-June.

**Plant 5' apart.**

Zones 5 - 8

Gold = Sun, Green = Shade + Level deer resistance (see page 6 for program details)

Roses and Shrubs

**Vaccinium Blueberry Glaze®**

**Bushel and Berry® Blueberry Glaze®**

Blueberry

Yum Yum Yum! Plant this blueberry in a patio container or place in the shrub border where there is easy access to the delicious wild-flavored blueberries. Whitish to pink flowers in spring precede the mid-summer berries. Dark green glossy foliage grows to 2-3' tall and wide and should be pruned after fruiting is complete. Semi-evergreen and self-pollinating. PP#25467 Plant 36" apart.

Zones 5 - 8

**N** Fruits & Berries

**Vaccinium Jelly Bean®**

**Bushel and Berry® Jelly Bean®**

Blueberry

Super sweet berries in large numbers are nestled amongst dense foliage in mid-summer and may well spark a dual between Mother Nature's four legged friends and the human harvester. Quite ornamental in a container when the multitudes of blueberries are set against red-streaked dark green leaves. Petite white blooms in spring precede berries. 12-24" tall. Self-pollinating. PP#24662 Plant 24" apart.

Zones 5 - 8

**N** Fruits & Berries

**Vaccinium Peach Sorbet®**

**Bushel and Berry® Peach Sorbet®**

Blueberry

Showy foliage in spring combines peach, pink, orange, and green hues together for a beautiful display in the garden or patio container. Small white flowers in spring set the stage for a bountiful crop of juicy blueberries in mid summer. 12-24" tall foliage becomes purplish-maroon in fall, retaining its leaves through winter in mild climates. Self-pollinating. PP#23325 Plant 24" apart.

Zones 5 - 8

**N** Fruits & Berries

**Vaccinium Pink Icing®**

**Bushel and Berry® Pink Icing®**

Blueberry

Whether you like blueberries or not, use Pink Icing™ as an ornamental for its stunning spring and winter foliage. New growth emerges in pink hues and combines with blue and dark green and in mild climates the winter foliage becomes breath-taking as it turns to turquoise blue. White flowers in spring are followed by robust blueberries in mid-summer. 3-4' tall mounding foliage. PP#23336. Plant 36" apart.

Zones 5 - 8

**N** Fruits & Berries

**Viburnum carlesii**

**Spice Island®**

**Korean Spice Viburnum**

A more compact version of Viburnum carlesii, small space gardeners can now enjoy this stunning, aromatic shrub that tops out at 4-5' tall. Rounded clusters of bluish pink buds open to white flowers with a sweet, spicy vanilla perfume in early spring. Unlike other Viburnum carlesii, Spice Island® flowers appear against a backdrop of fully emerged, deep green leaves making their snow-ball like flowers pop. Plant 4' apart.

Zones 5 - 9

**Viburnum x pragense**

**Prague Viburnum**

This versatile, fast growing, evergreen shrub grows 8-10' and can hold its own in every season. Large flat cymes of fragrant, creamy white flowers, give way to berries that transition from red to shiny black in autumn. Attractive dark green, deeply veined leaves with a felted white underside create an eye-catching combination that lends its use a specimen plant or as an excellent flowering hedge or privacy screen.

Plant 8-10' apart.

Zones 5 - 8

**Weigela florida**

**Midnight Sun™** Weigela

This stunning new Weigela will turn heads in the garden with its spectacular summer-fall foliage. Green foliage emerges in the spring on these small 12-18" bun-shaped shrubs, followed by pink tubular flowers in late spring. The real show begins in the summertime as the foliage ages, turning warm hues of orange and red which will continue to deepen through the fall. Great used in container or as a low border. Plant in full sun for best foliage color. PPAF Plant 12 - 18" apart.

Photo courtesy of Spring Meadow Nursery.

Zones 4 - 8

**Weigela florida**

**My Monet Purple Effect®**

Weigela

Leaves of cream, green and pink are tinged with purple and topped with small pink tubular flowers in late spring. Mounded and compact at 18-30" tall and wide, the foliage color holds well up to the first frost and is somewhat more heat tolerant than My Monet®.

Plant 24" apart.

Zones 4 - 7

**Weigela florida**  
**Sonic Bloom® Pink**  
Weigela

Add a vivid pink splash to your garden with this bountiful blooming Weigela. A profusion of hot pink, trumpet-shaped flowers covers this mounding 4-5' shrub in May with continuous blooms until the first frost. No deadheading is required! Attractive to hummingbirds and resistant to deer. Plant in a mass or as a striking focal point. PP# 24572.

Plant 5' apart. Photo courtesy of Spring Meadow Nursery.

Zones 4 - 8    

**Weigela florida**  
**Sonic Bloom® Red**  
Weigela

Provide season long color with this elegant 4-5' re-blooming Weigela, featuring showy clusters of lipstick-red trumpet-shaped flowers that attract hummingbirds in droves. Coppery-bronze foliage emerges in early spring turning a rich, glossy green through the season. Waves of re-bloom continue from May until late fall. A very showy shrub for any mixed border. PP# 25132. Plants 5' apart.

Photo courtesy of Spring Meadow Nursery.

Zones 4 - 8    

**Weigela florida**  
**Spilled Wine®**  
Weigela

The dark burgundy-red foliage has the same brilliant rose-pink tubular flowers as Wine and Roses® but is shorter at 2-3' tall with a spreading habit to 3-4' wide. PP#23781

Plant 3' apart.

Photo courtesy of Spring Meadow Nursery

Zones 4 - 8    

**Yucca filamentosa**  
**Adam's Needle**

As a bold accent in groups or in the border, evergreen Yucca is unsurpassed. The sword-like blue-green leaves of this native, with thin curling threads on the leaf margins, are 3-4' high and are of interest all year long. In July and August, very showy and fragrant, creamy-white, bell-shaped flower spikes rise on stiff stems to 5-6'. Sun and drought-tolerant, its foliage is a great contrast to a host of finer-textured plants.

Plant 2' apart.

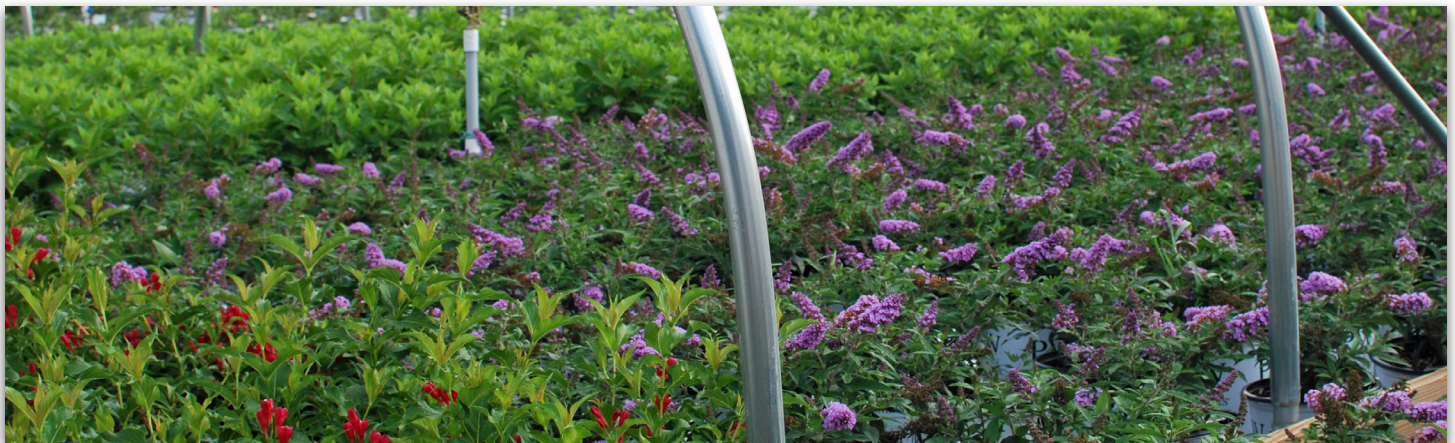

Zones 5 - 9    

**Yucca filamentosa**  
**'Color Guard'**  
Varegated Adam's Needle

'Color Guard' has stiff green sword-like leaves with a wide bright yellow center, and we mean bright! Add a compact and dwarf habit at 2-3', superb drought-tolerance, deer resistance, an evergreen quality, and a preference for plain sandy soil, and 'Color Guard' becomes irresistible. The white flowers in July-August on strong stems are a delightful after-thought. Plant 2' apart.

Zones 5 - 9    

Gold = Sun, Green = Shade + Level deer resistance (see page 6 for program details)
